

The Sand Blaster

VOL. XXV, ISSUE III

MAY/JUNE 2018

DEDICATED TO MANAGING GOLF COURSES ... from the ground up

Press Release: New England Regional Turfgrass Foundation, Inc.

The New England Regional Turfgrass Foundation recently held its 21st Annual Meeting on May 14, 2018 where a new Executive Board was elected. Jeffrey M. Urquhart, Golf Course Superintendent of the Milton-Hoosic Club in Canton, MA has been elected as the 22nd President of the Foundation, succeeding Randy S. Weeks of Laconia Country Club, Laconia, NH.

Jeff, has represented the Golf Course Superintendent Association of New England on the NERTF Board since 2014. Peter J. Rappoccio, CGCS of the Concord Country Club also of GCSANE will serve in the vice-president's seat for this upcoming year. Mark Mansur of Wintonbury Hills Golf Course in Bloomfield, CT will serve as the Treasurer for his second year. Robert B. Searle of the Abenakee Club of the MGCSA has been elected to serve as secretary. Randy will continue to serve on the board as the Immediate-Past President. The foundation consists of 2 delegates from each of the 7 GCSAA Chapters located in New England, 1 delegate from the Sports Turf Managers Association of New England (NESTMA) and 1 delegate from the Massachusetts Association of Lawn Care Professionals (MALCP). There are two advisory seats filled currently by the University of Massachusetts and the University of Rhode Island respectfully.

The 21st Annual Conference and Show was held in Providence, RI on March 5th through March 8th, 2018. The 2018 winter weather cooperated nicely on Monday and Tuesday opening the doors for attendees and exhibit booths whose sales were very strong. Monday/Tuesday seminar attendance was at its second highest number since seminars were added. The weather did become a challenge to the show goers on Wednesday. Matt Light, retired Patriot and 11yr Offensive Lineman for the team, inspired a large crowd during his keynote address. 71.5 total hours of Education for all attendees was available during the 4 days and the trade show was open a total of 13 hours. The 2019 show dates for the 22th annual show are: March 5-7, 2019 in Providence, RI. For more information on the show and New England Turfgrass Research please visit our website: www.nertf.org.

In other NERTF news, the 7th annual Tee-Up New England rounds of golf auction took place April 9-16, 2018. 112 rounds of golf across New England and one day of tennis at the Longwood Cricket Club were auctioned off. Rounds were collected for the auction by the NERTF and ATG (Alumni Turf Group). All rounds were sold, and little over \$32,000 was raised towards turfgrass research in New England. We thank greatly all of the courses who participated in 2018 and wish to thank everyone for supporting turfgrass research. A list of courses that participated is located at www.tee-upnewengland.com.

Gary Sykes, Executive Director

2018-2019 NERTF Executive Board

(l to r): Peter J. Rappoccio, CGCS (Vice-Pres.), Jeffrey M. Urquhart (Pres.), Randy S. Weeks (Immediate Past-President). Robert Searle (Secretary) and Mark Mansur (Treasurer) were not at the meeting.

EDITOR'S NOTE: The Sand Blaster is produced bi-monthly as an informational service to its members. Printed material does not suggest the views, attitudes or recommended practices of GCSACC, the board members or its associated committees. Industry-related articles are always welcome to be considered for publication. Articles, as well as address and/or position changes, may be sent to Julie Heston at 401-934-9901 (fax) or jheston@verizon.net.

President's Message

Here it is the end of June and it seems like summer has finally arrived. The weather has affected play for us at Crosswinds, but it seems like rounds are picking up and everyone is happy to be outside enjoying the weather. We had a really slow May and beginning of June but the last few weeks along with Father's Day weekend have seen us get back to normal.

We recently had two monthly meetings with the first being at Waverly Oaks Golf Club. The golf course was in perfect condition which is a testament to Eric Newell and his staff. Along with the great conditions, we had a banner weather day, and topped it off with a great meal in the clubhouse.

Our second meeting was the annual Scholarship and Research Tournament hosted by Steve Carr at Pocasset Golf Club. Once again the golf course was in perfect shape and a joy to play. Thanks goes out to Steve and his staff for all the extra time and effort that goes into hosting our biggest event of the year. The whole day from the course, staff, lunch, and dinner was a great experience.

I would also like to take a moment to thank all of the other people that make the Scholarship and Research Tournament successful every year. Thanks to Joe Felicetti for all the work he put into making the tournament successful. Also, thanks to Julie Heston for keeping things in order and running smoothly. Lastly, thanks to all of our corporate sponsors and every person or Club that donates an item for the silent raffle. We wouldn't be able to hold the event without your support.

Finally, we are hosting the RHO-COD Cup this year at Thorny Lea Golf Club. Let's get out there and support Brooks Pickering and his staff and bring the Cup home to the Cape where it belongs. I hope to see you all there.

Sincerely,
Brian

"INSIDE THE LEATHER"

• Welcome New Members:

- **Matt Emond**, Superintendent, Reservation Golf Club
- **Ed Keyes**, Superintendent, Brockton Country Club
- **Dan Read**, Superintendent, Holly Ridge Golf Club

• Announcements

Our condolences go out to the family of **Dr. Noel Jackson**, URI Professor Emeritus, who has passed away on May 29, 2018. He was well known by many of our members as a friend and mentor and will be greatly missed.

Our condolences are extended to the Amarin family on the passing of **Paul Amarin**, sales representative for New England Golf Cars. Paul passed away at the age of 57 on June 3, 2018 after a long, courageous battle with cancer.

- We are looking for photos of our member's courses for the website. If you would like to have your photo on the website, please email them to Julie at jheston@verizon.net.
- If your club or company has been recognized or awarded a distinction, please send us an email at jheston@verizon.net or seyman60@gmail.com. We will mention it in an upcoming edition of *The Sand Blaster*.
- A reminder to our members that you can obtain a USGA GHIN number through GCSACC. There is no fee for this. Please contact Julie Heston if you are interested.

• Grassroots Ambassador Update

The recent Grassroots update sent to all Ambassadors highlighted the Farm Bill which is up for consideration in both the House and the Senate. The GCSAA is supporting the House version which has numerous regulatory reform provisions benefiting golf course management. All of this information can be found on the GCSAA's website under the Advocacy page. Our jobs as Grassroots Ambassadors is to reach out to our Member of Congress and congressional staffers asking for their support of the Farm Bill but members of the GCSACC can also contact their local member of Congress by simply emailing them in support of the House version of the Farm Bill.

Thank you,
John T. Kelly Jr
Golf Course Superintendent

NO ONE CAN PUTT WHILE PYTHED.

Segway® Fungicide SC sinks Pythium disease!

Missing a two-foot putt is maddening, but seeing Pythium destroy healthy turf can drive you over the edge. Stop it with Segway® Fungicide SC.

Segway delivers outstanding protection against Pythium disease, including root dysfunction, blight, damping-off, and root rot. Segway lasts up to 28 days, and has no known cross-resistance with existing fungicides, making it ideal for your rotation program.

We can't help you with your short game, but we can help you stop Pythium: Segway.

The Next Generation of Surfactants

You Don't Have to Sacrifice Optimum Soil Moisture to Achieve Firm and Fast Conditions on Top...

Turf Surfactants with a Difference

The Ocean Organics Surfactant Line provides you with ideal playing conditions and the uniform root zone soil moisture that every plant craves. Our proprietary surfactant formulations contain EO/PO Block technology to cure water repellency, a biostimulant to foster plant fitness, and a specialized penetrant.

Using our high-performance surfactants you can optimize moisture uniformity and increase the efficacy and control of your fertility and pesticide programs while conserving water.

Kevin's GCSAA Corner

By Kevin Doyle, GCSAA Northeast Field Representative

Golf courses are often misunderstood, tagged as hazards to the environment. Much effort is put into setting the record straight. One way to differentiate higher standards is through specifically designed environmental programs. Before GCSAA's 50 by 2020 best management practices initiative, some state and local programs were already in place. One such comprehensive program developed in conjunction with Rhode Island Department of Environmental Management (DEM) is the Rhode Island Golf Course Green Certification, a collaboration with the Rhode Island Golf Course Superintendents Association (RIGCSA).

In 2010 the RIGCSA, led by then president John LeClair, CGCS, worked hard to develop the voluntary point-based program and have touted the benefits ever since. With a score of 300 points need to achieve certification, and a further 350 points required to recertify, these totals are indeed lofty goals. More than simply turf, this program looks to touch all aspects of the golf facility and you are rewarded with points for practices or changes that are positive for the environment. As always, the benefits of environmental programs come from the resulting data, and I recently learned that the data does indeed impress!

GCSAA class AFC member Pat Hogan, government relations director for the RIGCSA, updated the group at a recent chapter meeting on RI DEM data. Ann Battersby, Senior Environmental Scientist at the DEM, compiled information from seven golf courses recently recertifying through the Golf Course Green Certification program. Here are some of the highlights:

Pesticide reduction: 32 pounds
Fertilizer reduction: 98,690 pounds
Water reduction: 243.8 million gallons

Hogan's employer, Sodco, is also a noted environmental business earning Sustainable Turf Farm Certification designation. Sodco's recertification numbers are stunning as well:

Pesticide reduction: 61 gallons
Fertilizer reduction: 103,455 pounds
Water reduction: 129.2 million gallons

As of February 2018, 13 courses in Rhode Island are Golf Course Green Certified:

Point Judith CC
Agawam Hunt Club
Potowomut GC
Pawtucket CC
Weekapaug GC
Newport CC
Button Hole GC
Shelter Harbor GC
Goddard Memorial Park GC
Alpine CC
Rhode Island CC
Sakonnet GC
Wannamoissett CC

Continued on next page

Whether by using your current or future BMPs, state sponsored programs (as RI has done), or utilizing lake/river friendly opportunities, the intrinsic or perceived value of environmental programs and their recognition is real. When voluntary efforts large or small can result in differences as noted above, it continues to prove the stewardship of our industry. Kudos to the seven recertified Rhode Island Golf Course Green Certification on their accomplishments and I look forward to the data 13 courses can develop in the future! Want to learn more about the program? Check out the Rhode Island Golf Course Green Certification workbook link here:

Turf Classic
Winged Foot Golf Club,
Mamaroneck, NY
Honoring Steve Rabideau

The very name "Winged Foot" has a sort of magic for those who know the club from afar. To them it stands for competitive golf at its highest level -- a place where history was made by Bobby Jones... and others. But for those who know Winged Foot intimately, it is much more fun and meaningful than a place of big occasions. It is a steady heartbeat of golfing pleasure and sportsmanship, where the game is the thing and where many great matches and tall tales have been spun. Winged Foot is, in sum, a temple to the spirit of golf."

www.sodco.net

Spectacular Shortcut. Fantastic Fairway Height. Gorgeous Greens Height. Only at Sodco.

Sodco is currently growing two varieties of **Fairway Height Bentgrass**. **Pennway** bentgrass provides the broad genetic diversity that creates a fine texture and the dense, uniform turf. **PureFormance** bentgrass combines the three top performing bentgrass varieties to create optimal playing conditions.

Sodco's **Shortcut Bluegrass** is a mix of Kentucky Bluegrass varieties, maintained at a height of 5/8 inch.

Our shortcut bluegrass is grown with a blend of dwarf bluegrass that is able to handle the low height of cut, which makes this sod perfect for tee boxes and fairways. A perfect substitution for areas bentgrass is not preferred.

Sodco's **007/Declaration Greens Height Bentgrass** far exceeds the overall turf performance that is expected from a traditional bentgrass. This blend combines two top ranked varieties in overall turf quality and dollar spot resistance. Sodco's 50/50 blend is guaranteed to create optimal playing conditions for your greens.

UConn Turfgrass Field Day

Tuesday, July 17, 2018

at the Plant Science Research and Education Facility in Storrs, Connecticut

For more information and to register, visit www.regonline.com/turfgrassfieldday2018

The 2018 Turfgrass Field Day at the University of Connecticut offers exciting educational opportunities for turfgrass professionals of all levels.

The date of the Field Day has been selected in order to provide the best opportunity to

view the research plots when they are under the greatest summer stress. Cutting edge research in the areas of lawn care, sports and golf turf management will be presented.

Attendees will have an opportunity to discuss ongoing research and management concerns with the UConn turf team. In addition to seeing the latest research

results, turfgrass professionals have the opportunity to interact with exhibitors and discuss the latest developments and challenges in the industry.

Agenda:

- 7:30 – 9:15 Registration opens with continental breakfast, Visit with Exhibitors
- 9:15 – 9:30 Welcoming remarks
- 9:30 – 12:00 Guided tour of research plots
- 12:00 – 1:00 Lunch
- 1:00 – 2:30 Afternoon workshops (Separate registration required)
 - Turfgrass Disease Identification and Management Walking Tour
 - Utilizing UConn's New Technology App for Improved Nutrient Management

Pesticide and certification credits will be available

Early registration deadline is June 29, 2018.
